

**THE PUBLIC SCHOOLS OF CALUMET,
LAURIUM & KEWEENAW
USING THE APPLE IPAD2 TO LAUNCH
THEIR iCLK LEARNING INITIATIVE**

Dear Parent(s)/Guardian(s):

The CLK Schools is transforming student learning through universal access to technology. The district will make this possible by issuing iPads to students in grades 4-12 to ensure students have unlimited opportunities to learn anytime and anywhere. The iPad is a mobile computer that brings the world's learning to your fingertips.

The district's goal with this initiative is to help students develop the skills and knowledge necessary to responsibly navigate through this emerging, modern world. It is our hope that the iPad will be used as a tool to enhance your child(s) innate and natural curiosity to learn and create a dynamic educational experience at CLK Schools.

We have set up a webpage with information regarding the district's initiative. We encourage you to visit our district homepage at www.clkschools.org where you will find a link to more information. The webpage contains all of the informational documentation and agreements associated with our initiative. We feel the information contained on the website will answer your questions, but if you still need clarification on the initiative, please do not hesitate to contact your building principal or myself.

The district will be issuing iPads to students on the first day of school, Tuesday, September 6th, 2011. In order for a student to receive an iPad, parents/guardians must have all agreements signed and returned to the school before an iPad can be issued. The agreements will be mailed to you in the "Back to School" packets that will be sent to you in August from the building principals.

Sincerely,

Darryl A. Pierce
Superintendent
