

Instructions for accessing Wi-Fi on your iPad

1. Go to **Settings**
2. Select **Wi-Fi**
3. Under Wi-Fi Networks, make sure it is set to **ON**
4. Below this section under Choose a Network should be a list of all available wireless networks. Select the account that you'd like to connect to.
5. If you are connecting within the school district, select **CLKPrivate** and use your network login name and password.
6. If you are connecting outside of the school district, select the desired network.
7. If the account has security enabled, you will need to know the password for the account.
8. When finished, press the home button.
9. Access the internet by selecting your Browser App.
